January 9, 2009

**Dr. Manmohan Singh**

Hon'ble Prime Minister of India

Government of India

South Block

New Delhi 110 011

Respected Sir,

**Sub: Request to protect Satyam Computers  
and its Stake holders.**

The Government of India must step in to protect the business and employees and all the stake holders of Satyam Computers. The Government of United States must also similarly step in to save lot of American investment banks and commercial banks.

Satyam Computers is an IT company with a business of over two billion US\$, a vast international and Indian customer base in which 185 are Fortune 500 companies in 66 countries, 53000 employees and a huge infrastructure. All these should not be allowed to go waste. The Government must persuade either the large private IT companies to take over the company or the assets of the Satyam Computers and continue its operations.

The Chamber requests that the Government should take immediate steps within a week's time, before matters go out of hand.

Yours truly

Sd/-

**Mahendra Ramdas**

President
